1.3 Cloud Concepts

IaaS	Allows installing OS
Private is Public when providing services to public	
Cloud Bursting	Offloading excess traffic from cloud
Multi Tenancy	Affordable but Risky + Bandwidth Problems
Cloud Direct Connection	Conn between Public Cloud and Company
Colocated Data Centre	Only renting the space, hardware is our own
VNC(Virtual Cloud Network)	A Network over the cloud
NFV-ISG(Industry Specific Group)	VNF, NFVI, NFV-MANO(Management and Orchestration)
